

Vision International Logistics Acquires Tomkinson Global Logistics to Expand Project Freight Expertise.

Brisbane, Australia – 1 October 2025 –

Vision International Logistics is pleased to announce the acquisition of **Tomkinson Global Logistics (TGL)**, a respected Australian freight forwarder specialising in project logistics and the international import and export of heavy machinery.

This strategic acquisition combines Vision's market-leading strength in perishables with TGL's proven expertise in complex project freight. From earthmoving, construction, mining and forestry to agricultural equipment, TGL has built a strong reputation for managing the import and export of heavy machinery across Australia and global markets. Their specialist knowledge and meticulous attention to detail ensure machinery is transported seamlessly and with the same care as if clients were moving it themselves.

By bringing together these complementary strengths, Vision is enhancing its service offering, providing customers with greater capability, continuity and the backing of a trusted Australian-owned logistics provider with international reach. Vision clients gain access to expanded project freight solutions, while TGL customers benefit from Vision's award-winning technology, broader global network and extensive service capability across sea, air, rail and road.

*"We are excited to welcome Tomkinson Global Logistics to the Vision family," said **Michael Thirgood, Chief Executive Officer, Vision International Logistics.** "I look forward to leading the successful integration of the Tomkinson Global Logistics team, customers, and stakeholders into Vision. Our cultures are strongly aligned, and together we are committed to delivering reliable, consistent service excellence. This acquisition allows us to build on that shared passion while creating even greater opportunities for our customers and our people."*

Steve Rider, Founder of Vision International Logistics, added: *"For over 30 years, Vision has been built on integrity, heritage values, long-term relationships and a commitment to delivering exceptional service. The acquisition of Tomkinson Global Logistics reflects those same foundations – Darren and his team share our dedication to customers and bring specialist expertise that strengthens Vision for the future. Together, we are expanding opportunities for our people and our customers, while continuing to build on Vision's proud Australian-owned legacy."*

Darren Tomkinson, Owner of Tomkinson Global Logistics, commented: *"My team and I are proud to be joining Vision International Logistics, ensuring our loyal customers continue to receive the professional and personal service we have delivered for the past 18 years. Vision is a trusted, Australian-owned company with a proven record of innovation and success. Partnering with Michael and Steve opens exciting new opportunities for our team to grow and to enhance the specialist service our customers value."*

The acquisition highlights Vision's ongoing commitment to growth, innovation and delivering world-class logistics solutions. Customers can expect continuity of service with the added benefits of expanded expertise, increased capacity, and the support of a trusted, forward-looking partner.
